To whom it may concern

It is to acknowledge that BASF Pakistan is working with *M/s Poly Products* for the business development of BASF's sports flooring solutions. We hope this partnership will help to develop high standard rubber bounded sports floorings in Pakistan by using Elastan.

Elastan is low volatile organic compounds (VOCs) with strong viscosity, Good weather resistance & Adjustable curing time.

BASF has been present in Pakistan for five decades. With production in Karachi, BASF offers innovative solutions for key local business sectors. BASF maintains offices in Karachi, Lahore, and Islamabad. In addition, we also have technical development center for Polyurethane located in Karachi which is actively used for the various technical services and testing for our customers. Our portfolio is organized into six segments: Chemicals, Materials, Industrial Solutions, Surface Technologies, Nutrition & Care and Agricultural Solutions.
